

## Thermometer

Girl I got a fever of a hundred and one  
I'm burning with love as hot as the sun  
It's just gone up to a hundred and two  
Can't you see I'm on fire for you  
Thermometer's reading a hundred and three  
Come on baby ain't you burnin' for me

Chorus:

Girl I got a fever  
It keeps on getting higher  
I think it's now or never  
I got to give you my desire

Already reading a hundred and four  
No sure how long I can take anymore  
Thermometer's screaming a hundred and five  
How much longer can I stay alive  
I get up to a hundred and six  
Flash into flame like a stack of dry sticks

Chorus /Bridge

Repeat chorus

Doctor said Son are you ready for heaven  
'Cause you got a fever of a hundred and seven  
I said doctor it's not too late  
I think I can handle a hundred and eight  
My fever just reached a hundred and nine  
Show me your lovin' and I'll be just fine

Chorus

Repeat chorus
